

THE SACHSEL STUDIO

**THE PHOTOGRAPHER
WILL CHANGE**

When you travel to Perth, I studied Fashion and Fashion Design at Curtin University where further specialty work in an area of conceptual photography I moved to lighting in Perth, where my creative processes and skills continued to evolve, with graphic design and photography quickly becoming my main focus. I recently returned home to Perth in 2014 and I am very excited to explore the Western Australian landscape for future photography series.

I have been lucky enough to travel to some beautiful places around the world, always with my camera in hand to capture the hidden beauty and special moments of the places I visit.

The film portfolio was created through a series of conceptual photographs which collectively form a visual story of my travels and experiences, with each one having an emotional connection for me to the particular location - my wish is that these photographs convey powerful feelings to you.
